PROFESSIONAL SUMMARY

Full-Stack Web Developer and MCA student with hands-on industry experience building responsive web applications, e-commerce platforms, and AI automation solutions including voice agents and multi-agent workflows. Skilled in React, Next.js, JavaScript, TypeScript, Tailwind CSS, FastAPI, and REST API integration. Currently working as a Web Developer at Tycum Industries, delivering mobile-friendly, production-ready interfaces.

WORK EXPERIENCES

Web Developer | Full-time Sep 2026 - Present
Tycum Industries Pvt. Ltd. On-site • Lucknow

- Design, develop, and maintain a high-performance e-commerce website with dynamic product listings, advanced filtering, and a secure shopping cart and checkout workflow.
- Build and optimize frontend components using React, JavaScript, Tailwind CSS, and Ant Design for fully responsive layouts and a seamless mobile experience.
- Collaborate with cross-functional teams to integrate payment gateways, REST APIs, and database schemas for real-time inventory management.

Technologies / Skills Used : JavaScript, Tailwind CSS, Nextjs, Reactjs, Typescript, Tailwind, MongoDB

AI Automation Intern | Internship Mar 2026 - Aug 2026
Aeronexus Solutions Pvt. Ltd. Hybrid • Lucknow

- Contributed to Aero AI, an AI-powered voice calling agent, working across a FastAPI backend and React frontend.
- Built React campaign management dashboards for an automated voice calling system, including CSV upload for bulk data import.
- Integrated backend REST APIs with frontend interfaces and implemented white-label configuration to customize the product per client.
- Worked on AI agent and multi-agent workflows, and documented technical processes into clear, structured execution steps for the team.

Technologies / Skills Used : FastAPI, React

EDUCATIONS

Chandigarh University Sep 2026 - Jun 2028
Master of Computer Applications (MCA)

Integral University, Lucknow Aug 2023 - May 2026
Bachelor of Computer Applications (BCA) Percentage : 8.0/10

Navayuga Radiance, Lucknow CGPA : 75.8%
Higher Secondary (Class XII)

PROJECTS

The Mali – E-commerce Store (Flowers, Cakes & Gifts) | 🔗 The-mali-e-commerce

- Developed a responsive, mobile-first online store for flowers, cakes, and gifts using Next.js, TypeScript, and Tailwind CSS.
- Handled deployment on Vercel with GitHub version control and configured the custom domain setup.

Technologies / Tools Used : Next.js, TypeScript, Tailwind CSS, Vercel, GitHub

Multi-Agent AI Business Consultant

- Built a multi-agent AI workflow in n8n that coordinates specialized AI agents to analyze business queries and generate consulting-style responses.

Technologies / Tools Used : n8n, AI Agents, LLM APIs

Email Spam Detection using Machine Learning

- Built a spam detection web app using TF-IDF and Naive Bayes, with a Flask backend for real-time predictions, deployed on Render with GitHub version control.

Technologies / Tools Used : Python, NLP, TF-IDF, Naive Bayes, Flask, HTML, CSS
